

Blockshade Help File Documentation

Thank you for purchasing Blockshade, a powerful WordPress plugin that adds customizable shadow support to all blocks in the Gutenberg editor. This documentation will help you install, customize, and use Blockshade effectively.

Installation

To install Blockshade, follow these simple steps:

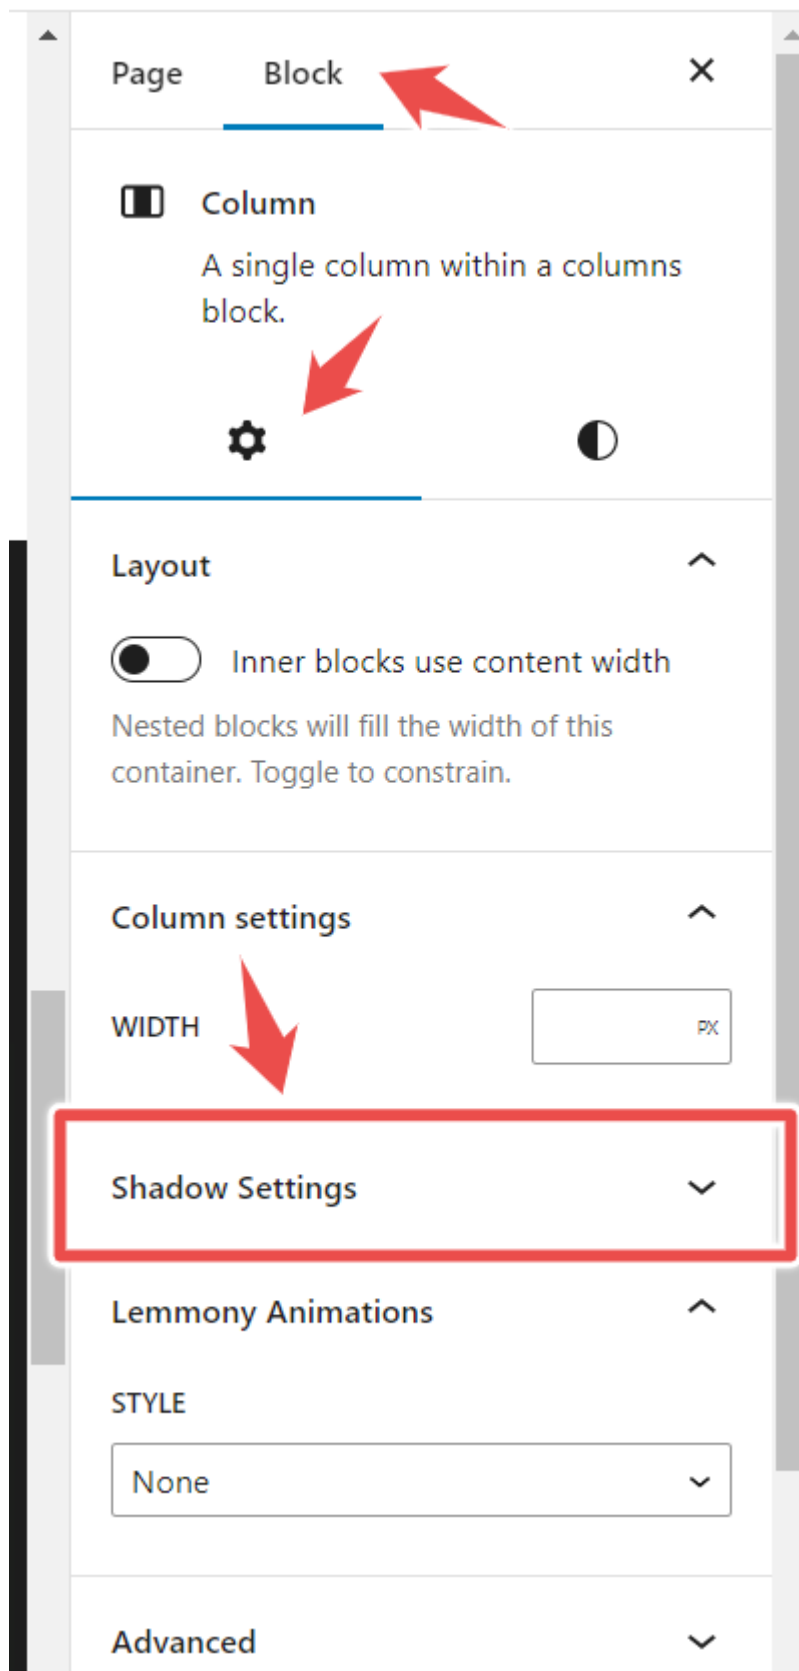

1. Find the `blockshade-plugin.zip` inside the Downloaded Zip.
2. Log in to your WordPress Dashboard and navigate to "Plugins" -> "Add New".
3. Click on "Upload Plugin" and select the `blockshade.zip` file.
4. Click on "Install Now" and wait for the installation to finish.
5. Click on "Activate Plugin".

Customization

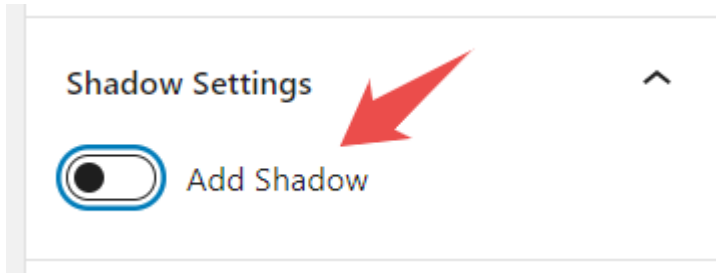

Blockshade offers robust shadow customization options, including five levels of depth and a color picker to choose from. Here's how you can customize the shadow settings for your blocks:

1. In the Gutenberg editor, select the block you want to customize.

2. Navigate to the "Blockshade" block settings panel.

3. Switch on the Add Shadow Toggle Button.

4. Choose the depth and color of the shadow effect for the block.

5. Save and publish your changes.

Usage

Blockshade makes it easy to add depth and dimension to your blocks with advanced shadow settings. Here are some tips to help you get started with using Blockshade:

- Experiment with different shadow depths and colors to find the perfect combination for your blocks.
- Use unique shadow styling for each block to create individualized shadow effects.
- Adjust the shadow control for detailed block styling.
- Take advantage of Blockshade's user-friendly shadow tools for easy block customization.
